

COMMUNITY SUMMIT - Action Area Order and Schedule
09/19/2011

NOTES:

Community summits would be combined to reduce the number of summits from 7 to 5 (or even 3) - reducing the risk of "burning out" the community with meetings this would allow more time to prepare between summits.

Each action area would continue to follow their own approval track or may be combined if it makes sense.

We would need to revise the current schedule to reflect the new order and combined summits.
