Revised Questions for Discussion:

1. Where should employment growth and redevelopment be focused?
2. SW Industrial Area: How important is it to maintain this area exclusively for industrial uses? Should uses be expanded to include commercial offices and mixed-use development (e.g., retail or housing)?
3. Kruse Way: Should housing or commercial uses be encouraged in infill areas (such as underutilized parking lots)? What changes are needed for Kruse Way office space and housing to successfully co-exist? Are there additional services or amenities (e.g., retail, pathways, transit) that should be added?
4. What should be the City's role in encouraging redevelopment of employment land?
5. What transportation improvements are needed to support current and future businesses in Lake Oswego?
6. How can the City help home-based businesses to grow and remain in Lake Oswego?
